

Addendum to Master Services Agreement

- i. This service addendum is made pursuant to the Master Services Agreement (The “Agreement”) between (1) the customer (who is identified in the accompanying electronic rider, the terms of which are explicitly incorporated herein) and the customer’s affiliates (collectively the “Customer”) and (2) Dynamic Quest, LLC (“Dynamic Quest”).
- ii. Term of Service: This Addendum will remain in effect until the termination date of the Agreement.

Description of the Service

A Switch is an important part of the infrastructure of a network. A Switch has a variety of features, based on the make and model of the switch procured.

Dynamic Quest Switches offer the following capabilities:

- 1) High-Speed Switching capabilities to handle increased network traffic efficiently.
- 2) Power over Ethernet (PoE): PoE, PoE+, and in some models, PoE++ to power devices like IP cameras and wireless access points directly through the Ethernet cable.
- 3) Layer 2 and Layer 3 Switching: Support for both Layer 2 and Layer 3 switching, which is essential for network segmentation, traffic management, and routing.
- 4) Security Features such as 802.1X authentication, VLAN support.
- 5) Quality of Service (QoS) features to prioritize critical network traffic, ensuring that important applications receive the necessary bandwidth and performance.
- 6) Access Control Lists (ACLs):
 - a) Allow administrators to define rules that permit or deny traffic based on source/destination IP addresses, port numbers, and protocols, effectively controlling network access.
- 7) Port Security:
 - a) Limits which devices can connect to individual switch ports, preventing unauthorized devices from accessing the network.
- 8) VLANs (Virtual Local Area Networks):
 - a) Create logical network segments within a physical network, isolating traffic and enhancing security by restricting communication between different VLANs.
- 9) MAC Address Filtering:
 - a) Filters network traffic based on Media Access Control (MAC) addresses, preventing devices with unknown MAC addresses from accessing the network.
- 10) Secure Management Protocols:
 - a) Utilize protocols like SSH for secure remote access to the switch to manage configurations and updates.
- 11) Traffic Filtering:

- a) Monitor and control network traffic by filtering specific types of data based on predefined rules.

12) Authentication Mechanisms:

- a) Implement user authentication methods like 802.1X to verify devices and users before granting access to the network.

13) Dynamic Quest will:

- a) Install the equipment.
- b) Repair or replace the equipment if the physical equipment stops functioning.
 - i) If the equipment stops functioning as a result of a Customer action, a fire, a flood or some other force majeure event, the Customer is responsible for repairing or replacing the equipment.
- c) Changing the configuration on the equipment after installation is not included in this service.
- d) Management of the equipment after installation is not included with this service.
 - i) A management service for the equipment requires a separate service to be ordered.

This service description explains the service to be provided by Dynamic Quest. This service description may be adjusted at any time by Dynamic Quest for accuracy. Please contact your sales representative or go to our on-line service description site for the latest service description.

Service Set-up

Dynamic Quest will install and configure the equipment at the Customer premises.

The Service set-up does not include:

- 1) Site Surveys; and,
- 2) Migration efforts from another service to this service; and,
- 3) Removing, organizing or arranging files on an endpoint; and
- 4) Removal or disposing of equipment not owned by Dynamic Quest.

Pricing

Services will be invoiced one (1) month in advance of services provided.

The following billing elements are used to invoice for this service:

- DQ Hardware – Switch – A monthly recurring charge for each switch.

Service Limitations

In addition to other limitations and conditions set forth in this Service Description, the following service and support limitations are expressed:

Dynamic Quest expects the use of a fully implemented Microsoft local Active Directory or Azure AD structure, which facilitates and streamlines management, oversight, security, and project implementations. If a reactive support solution requires substantial time to implement due to the absence of a fully implemented Microsoft local or Azure Active Directory structure, Dynamic Quest, at its sole discretion, may bill the extra time as hourly out of scope in accordance with Addendum E *(use this link to go to the Service Description site with the Addendums: https://info.dynamicquest.com/service_description)*.

Proper wiring within the building to connect the equipment to a switch or other device is outside the scope of this service.

Responsibility for workstation, server and network equipment software version upgrades are described in Addendum B *(use this link to go to the Service Description site with the Addendums: https://info.dynamicquest.com/service_description)*.

Any audit support provided by Dynamic Quest will be in accordance with Addendum F *(use this link to go to the Service Description site with the Addendums: https://info.dynamicquest.com/service_description)*.

Customer Hardware and Systems must be current in hardware and software standards to support the customer's existing operating environment. This requires : Warrantable, serviceable and able to support and perform Customer's current business operating environment.

Customer understands that no monitoring service, software product, or training program can fully protect them from digital theft. DYNAMIC QUEST HAS NO OTHER EXPRESS OR IMPLIED GUARANTEES, WARRANTIES, OR CONDITIONS beyond those provided by the Agreement.

Customer Responsibilities

- 1) Customer grants permission for Dynamic Quest to have secure remote access into Customer's network for management, reporting, alerting, and support functionality.

- 2) Customer will promptly notify Dynamic Quest of any events/incidents that could impact the services defined within this Addendum and/or any supplemental service needs, and for Dynamic Quest to respond in a timely manner via phone, email, and/or remote access.
- 3) Customer agrees that it will inform Dynamic Quest of any modification, installation, or service performed on the Network by individuals not employed by Dynamic Quest to assist Dynamic Quest in providing an efficient and effective Network support response.
- 4) Customer grants permission for Dynamic Quest to become the CSP (Customer Service Provider) for Microsoft Office 365 licenses, Microsoft 365 licenses, and any instances of Azure Hosting. Dynamic Quest will provide for the management and troubleshooting of any issues as well as Tier One helpdesk. Being the Microsoft assigned CSP allows Dynamic Quest to provide the quickest and most proactive levels of support for our Customers.
- 5) All Dynamic Quest owned equipment:
 - a) The Customer is responsible for providing space for the equipment that meets the following criteria:
 - b) Kept inside a climate-controlled, dry area that is protected from the weather. The climate-controlled area must maintain a temperature between 50 degrees Fahrenheit and 80 degrees Fahrenheit; and,
 - c) The climate-controlled area must be kept at a humidity between 50% - 80% and provides air flow; and,
 - d) The area cannot be under construction or have excessive dust.
 - e) Customer is responsible to provide power for the equipment. The power must be in compliance with local electrical regulations. The Customer is responsible for knowing the electrical regulations pertaining to their location; and,
 - f) Customer will provide power conditioning and battery backup for the Appliances; and,
 - g) Customer will provide two (2) gigabit network drops and two (2) internal static IP addresses for each piece of Dynamic Quest provided equipment; and,
 - h) Equipment must be kept in a location that is secure so that only authorized personnel can access the equipment.
 - i) Equipment must be installed in a telecom rack and the rack must be properly installed.
- 6) The Customer is responsible for 3rd party fees for products, software, services, and subscriptions not expressly provided by Dynamic Quest.
- 7) The Customer is responsible for providing adequate and reliable Internet connectivity including appropriate bandwidth.
 - a) All network connections from the Internet Provider (ISP) to the endpoint are minimum 1GB handoffs.
 - b) The Customer is responsible for the wiring within the building.
 - i) The wiring type will impact the internet speed for any equipment connected to the wiring.
 - ii) If the Customer selects high speed internet, it is recommended the Customer confirm the internet speed supported by the wiring type.
 - iii) Installing new wiring may be required in order to obtain higher internet speed.

- 8) Cost of consumables, replacement parts, hardware, software, network upgrades, and associated services owned by the Customer.
- 9) Manufacturer warranty parts and labor/services of equipment owned by the Customer.
- 10) Legal use rights to monitor digital credentials.
- 11) For failed server restoration: Customer must have a vendor supported network-based backup solution that produces Full Bare-Metal Recovery Backups (“Proper Backups”).
 - a) In the absence of Proper Backups, Dynamic Quest, will attempt to restore on a best effort basis and at its sole discretion, may bill the recovery time for failed servers as hourly out of scope in accordance with Addendum E (*use this link to go to the Service Description site with the Addendums: https://info.dynamicquest.com/service_description*).
- 12) Customer infrastructure equipment (including switches, Wi-Fi, firewalls, and other similar equipment) must be considered business class equipment and not residential-use equipment AND be a Dynamic Quest support brand and model in Addendum A (*use this link to go to the Service Description site with the Addendums: https://info.dynamicquest.com/service_description*).
